PROJECTS

LIVE WEBSITE (SQUAREEXSTUDIOS.COM) – HTML, CSS, JAVASCRIPT, BOOTSTRAP, JQUERY

- **Full-Stack Front-End Development:** Engineered responsive, high-performance websites by leveraging HTML5, CSS3, and JavaScript, ensuring seamless cross-browser compatibility and user-centric navigation.
- **Framework & Library Proficiency:** Accelerated development cycles and enhanced UI interactivity by implementing Bootstrap for mobile-first responsiveness and jQuery for dynamic content handling and DOM manipulation.
- **Visual Identity & Graphic Design:** Designed bespoke brand assets, vector illustrations, and high-fidelity UI components using Adobe Illustrator and Photoshop, focusing on visual storytelling and optimized web assets.
- **Multimedia Production:** Produced and edited professional video content using Wondershare Filmora, integrating engaging visual media to boost user retention and deliver immersive digital experiences.

MOBILE ENCYCLOPEDIA – VISUAL BASIC

In-depth reference on mobile phone models, providing detailed technical information on the processor, RAM, ROM, camera, speaker, microphone, and other key specifications for a wide range of brands

CYBER CAFÉ MANAGEMENT – VISUAL BASIC

Advanced cyber cafe management software: Streamline operations with automated client management, computer allocation, and billing calculations.

FILE EDITOR – CORE JAVA

Versatile text file editor: Comprehensive tools for text editing, file merging, and file splitting.

ONLINE JOB PORTAL – PHP

Comprehensive online job portal: Streamlined job searching, company registration, candidate profiles, and job posting.
